He meets a cute, mysterious local woman.11User reviews13Critic reviews13Cri Marnham sees her on the airport roof with Glass's arm around her shoulder. Although it tries to be both a suspense and love story, it accomplishes neither. Please wait... Finally, the summary of the paper and research significance were wrote out. The book's final chapter, set thirty years after the events of the book, finds Marnham back in Berlin for the first time since he left. That's all the more frustrating when the end arrives with what I assume is an homage to Casablanca. The night before he is due to officially start work, Glass takes Marnham out to a succession of nightclubs, where he gets increasingly drunk and encounters the attractive Maria, a German woman with whom he quickly and irreversibly becomes attracted. This novel, a blend of coming of age narrative and espionage thriller, tells the story of Leonard Marnham, a young British postal worker and unexpected government agent in Berlin in the months following the end of World War II. Eventually however, and after Marnham returns briefly to England where he realizes how much he wants to be with Maria, they put their fears aside and agree to marry. Both these narrative lines are, on some level, defined by the narrative's examination of the complex relationships between conquered and conqueror. At their engagement party, after Glass gives a sentimental speech, Marnham is warned by a new downstairs neighbor that Glass's espionage activities are well known and that to keep himself and his life safe and guiet, he should be careful about how much they associate. His conversation with Maria in the aftermath of Otto's death makes Marnham realize they have no choice but to dispose of the body and the narrative graphically describes how the two lovers cut up the body and load it into a pair of suitcases for disposal. After receiving a series of orders, first from a British intelligence agencies. The second part introduces Ian McEwan's writing inspiration and the social environment that the writer set in The Innocent. The narrative begins shortly after Marnham's arrival in Berlin. The third part analyses the love of Leonard and Maria and write out the sad ending of the love and the explanation of the incomplete love. Over the next few weeks, Marnham finds that his job is becoming less and less important to him even when he receives a secret assignment from a British superior. As it turns out, however, Marnham faces no reaction to the bodies being found and is reassigned back to Britain. Advanced embedding details, examples, and help! The paper analyses The Innocent at the base of the love story to unfold the theme. As he finds himself caught up in a web of tensions spun between the American and British allies, he also discovers the joys of love and sexuality, with the two aspects of his life coming together in a horrific and intense climax. Shortly after he leaves the suitcases, Marnham is shocked to learn that the facility is being raided by the Russians and worries that Otto's body is going to be found, leading the authorities back to him. It never finds a focus, (ultimately, I cared very little about any of the characters), it has the always fateful flaw of dialog that gets lost in whispered tones or buried beneath the score or SFX, and finally ... The forth part stresses the causes of the sad ending. Maria says goodbye at the airport, promising to visit him as soon as she can. As they struggle to recover from this invasion of their happiness, they also respond fearfully to the threat of a return visit. WHY, in heaven's name is Anthony Hopkins using his not-so-convincing American accent to play a character that could have been played better by half-a-dozen American actors? He meets a cute, mysterious local woman. A British telecommunication expert comes to 1950s Berlin to help the American spy on USSR. The whole thing is poorly focused and generally weak, despite solid performances by Isabella and Scott. AnswerYou have no recently viewed pages Want more? One day when he returns home from work, Marnham is shocked to find that Maria has been assaulted by her ex-husband Otto. As he puts that plan into effect, he unexpectedly encounters Maria herself in a meeting that results in his being seduced into a relationship that opens him up both emotionally and sexually. The first part of the paper summarizes the paper and its context. As he walks through familiar streets and unfamiliar buildings, he remembers the past and contemplates the future. Later, after a late dinner out, Marnham and Maria discover that Otto has invaded Maria's apartment. This is a response to a letter from Maria explaining her feelings, what happened between her and Glass, and expressing the hope that she and Marnham can someday, somehow recapture what was special between them.
