ALPK »Mod games for Android» Action and shooter »Hello Neighbor (full game) - an extremely interesting game for Android, made in the horror genre with complex mysteries and puzzles, in which you have to find the terrible secret of your neighbor. Our hero recently moved into a new house and immediately noticed that the neighbor across the road had locked a stranger in the basement. Without thinking about it, the hero decides to slip into the house and find out what is going on there, but it will not be easy, because there are various traps that must be pulled throughout the house. Be careful, think about every step, because if you are discovered, you will be captured, so you will have to start the game again. It is worth noting that each time you need to act according to a different plan. Our opponent has artificial intelligence and immediately reacts to all your actions. This means that if you went through the window the first time, the second time will be a trap, so you'll have to find a different way each time, and so on. The house you have to enter has many rooms and each room has many difficult puzzles. Find useful objects and devices, use them in different situations. Hello Neighbor Mod Apk, IA Advances Review and follower de tus movimientos y tienes que crear estate asias äirenicas parasten it. El Juego Ofree Muchas Cacterísticas surprised, como greficos asombros, jugabylidad fuera de länea, mapa de caja de arena inarenasante, interrecices environmental y muchas otras. El Juego tiene that vert con el sigilo y la exploraciã"n that you mante ocupado durante todo el dää. Escabulcher harbor walls "Casa de tu Vecino" sin ser atrapado por é é su parro.el gé nero de juegosIt allows players to always arouse curiosity. They usually play with funny children in these games. You will do the task, disturb someone and be angry. Hello voisin mod apk is another game, but there is a completely different way to tell stories. Fear counts and brings a tense experience to the player. However, this makes some people much more excited. The image of the game also brings a sufficient and horrifying, but less attractive look. This is interested in discovering the end of the players and is wondering. Also if you want to make fun of a strange but dangerous man, come to this game. Hello Voisin Mod APK? Hello, neighboring Mod APK is a part of the official game, the part of the neighbors, where you need to do here, where you need to do, where you need to face many exciting horror movies and discover natural things in homes. neighbors. If you are looking for something different as the first shooting or game of the game that plays an average action, no longer looking for neighbor APK fashion. The game creates the survival feelings and feelings of terror that allows you to change other games. It's like a hero and a fear you are competitors. Hello FULT, they play a new man in a newly moved city to reveal and discover the secrets of terrorism. With this modified version of the hello neighbor Mod APK. Read all the functions to get more information about this game. To solve your problem, we have activated all the elements of the game free of charge and you can use it at any time. You will be surprised by the AI elements that wisely predict your movements and create another situation for us. As mentioned earlier, the systemThis clearly shows from the game that we can cope with this smart movements. Since you can move your character to any part of the house and complicate the understanding of AI. View the wall hello to your neighbor, you can enter any house by just climbing the walls. Always choose this path to avoid capture and simplify the task. Jumping through the wall of the neighbors in the back of the house also leads to another barricade. Nevertheless, you should always pay attention to hidden cables when the same wall will be rare next time. A story full of mysterious colors every day, the old man settled in his area and was not going to meet the people who lived around him. That is why this gives you good ideas about how to have some fun. In fact, these are just a joke, but it will definitely be funny. However, when you get into your garden, everything begins to purchase a slightly frightening color. He hides a big secret in the house. Finally, you decide to find out what is happening. Will I live a big adventure? If you already know the rules of this game, no additional explanations are required. In the beginning, the player will have to try to run away from his enemy, and then find ways to find landmarks. This game did not stop the same most importantly. The conductor's neighbor will do everything possible to find a way to catch you and prevent you from finding a secret that is hidden in the unique. Your task is to find a way to get to one without falling into a trap. This battle will be extremely tense, since the enemy is becoming smarter and smarter. If he is careless, you will immediately find his whereabouts and will act very quickly. At this time, use the items that you have restored and take them. Depending on the level of the inflating scene, this pervert will dizzy for a moment. Use this opportunity and run. Otherwise, he will be stopped and everything will return to the beginning. An extremely complex APK mod in the neighborhood has a working mechanism unique to several games. The villains in the game will become smarter and smarter. For parts of the same game, the villain acts the secondProject above. This means that the rogues, although very intelligent and rich, also get a girl if the player often plays them. However, the evil neighbor Hello is much more intelligent. Learn your movements and blows to make a decision. Thanks to the complex AI system, this hero is getting better and even predicted your movements. There are two problems with this mechanism of action. First of all, if he wins for the first time in this game, everything will be much easier. Next time it will not be easy to play. If you do not win and develop the game, you are more and more unfavorable. Secondly, it is also weak. If you stop and plan enough with unexpected movements, he ~ © Xito. An instructive, healthy neighbor is not really persecution and action game, it also has a puzzle element. Players go home for this neighbor and discover the possibilities. In some cases you cannot continue. At this point, players deal with puzzles to get suggestions for the next step. In addition, in some places you will also receive some items that are beneficial to your game. If they lead you, you can throw him an enemy and stun him for a moment. And install the downloaded APK file and wait for the process to be completed. List! Enjoy the neighbor Hello when everyone is unlocked. Browse your neighbor's houses and solve secrets. Fortunately, the game allows players to interact with objects in a building discovered during the game, distracted. because of its popularity. Every momentThe house offers you unique challenges and directly affects your game. The modified version of the game will help you get unlimited resources effortlessly and
