Correct the selfie pictures with lots of filtersRepair small problems with the skin in imagesShare the pictures on social networks Correct the selfie pictures with lots of filtersRepair small problems with the skin in imagesShare the pictures on social networks Page 8 Camera 360 Lite is also referred to by its developers as a beauty camera, which means that it's mainly used to improve upon the pictures taken with your phone. All the images can be easily shared to Facebook, Instagram, Twitter, and pretty much any social network out there. Correct the selfie pictures with lots of filtersRepair small problems with the skin in imagesShare the pictures on social networks Page 6 Camera 360 Lite is also referred to by its developers as a beauty camera, which means that it's mainly used to improve upon the pictures taken with your phone. Correct the selfie pictures with lots of filtersRepair small problems with the skin in imagesShare the pictures on social networks Page 5 Camera 360 Lite is also referred to by its developers as a beauty camera, which means that it's mainly used to improve upon the pictures taken with your phone. Correct the selfie pictures with lots of filtersRepair small problems with the skin in imagesShare the pictures on social networks Page 14 Camera 360 Lite is also referred to by its developers as a beauty camera, which means that it's mainly used to improve upon the pictures taken with your phone. The developers promise that the application can be used to erase blemishes, smooth skin, and generally do wonders for the people using it. Correct the selfie pictures with lots of filtersRepair small problems with the skin in imagesShare the pictures on social networks Page 26 Camera 360 Lite is also referred to by its developers as a beauty camera, which means that it's mainly used to improve upon the pictures taken with your phone. Correct the selfie pictures with lots of filtersRepair small problems with the skin in imagesShare the pictures on social networks Page 22 Camera 360 Lite is also referred to by its developers as a beauty camera, which means that it's mainly used to improve upon the pictures taken with your phone. Correct the selfie pictures with lots of filtersRepair small problems with the skin in imagesShare the pictures on social networks Page 13 Camera 360 Lite is also referred to by its developers as a beauty camera, which means that it's mainly used to improve upon the pictures taken with your phone. Correct the selfie pictures with lots of filtersRepair small problems with the skin in imagesShare the pictures on social networks Page 21 Camera 360 Lite is also referred to by its developers as a beauty camera, which means that it's mainly used to improve upon the pictures taken with your phone. Correct the selfie pictures with lots of filtersRepair small problems with the skin in imagesShare the pictures on social networks Page 24 Camera 360 Lite is also referred to by its developers as a beauty camera, which means that it's mainly used to improve upon the pictures taken with your phone. With the right set of filters and tools, it can do wonders to a shot that would otherwise be rather boring. Correct the selfie pictures with lots of filtersRepair small problems with the skin in imagesShare the pictures on social networks Page 19 Camera 360 Lite is also referred to by its developers as a beauty camera, which means that it's mainly used to improve upon the pictures taken with your phone. Correct the selfie pictures with lots of filtersRepair small problems with the skin in imagesShare the pictures on social networks Page 17 Camera 360 Lite is also referred to by its developers as a beauty camera, which means that it's mainly used to improve upon the pictures taken with your phone. Correct the selfie pictures with lots of filtersRepair small problems with the skin in imagesShare the pictures on social networks Page 2 Camera 360 Lite is also referred to by its developers as a beauty camera, which means that it's mainly used to improve upon the pictures taken with your phone. Camera 360 Lite is also referred to by its developers as a beauty camera, which means that it's mainly used to improve upon the pictures taken with your phone. Correct the selfie pictures with lots of filtersRepair small problems with the skin in imagesShare the pictures on social networks Page 18 Camera 360 Lite is also referred to by its developers as a beauty camera, which means that it's mainly used to improve upon the pictures taken with your phone. The only problem is that despite the fact that it has "360" in its name, it has nothing to do with panoramic images or VR. Correct the selfie pictures with lots of filtersRepair small problems with the skin in imagesShare the pictures on social networks Page 23 Camera 360 Lite is also referred to by its developers as a beauty camera, which means that it's mainly used to improve upon the pictures taken with your phone. Correct the selfie pictures with lots of filtersRepair small problems with the skin in imagesShare the pictures on social networks Page 12 Camera 360 Lite is also referred to by its developers as a beauty camera, which means that it's mainly used to improve upon the pictures taken with your phone. Correct the selfie pictures with lots of filtersRepair small problems with the skin in imagesShare the pictures on social networks Page 7 Camera 360 Lite is also referred to by its developers as a beauty camera, which means that it's mainly used to improve upon the pictures taken with your phone. The application comes with more than a dozen beauty presets and filters, and they are especially useful for selfies. Correct the selfie pictures with lots of filtersRepair small problems with the skin in imagesShare the pictures on social networks Page 15 Camera 360 Lite is also referred to by its developers as a beauty camera, which means that it's mainly used to improve upon the pictures taken with your phone. Correct the selfie pictures with lots of filtersRepair small problems with the skin in imagesShare the pictures on social networks Page 9 Camera 360 Lite is also referred to by its developers as a beauty camera, which means that it's mainly used to improve upon the pictures taken with your phone.
