However, the layout of the pages is kind of dumb. There is a very wide left margin on every page; on some pages, diagrams go in that spot, but on most pages its just a big blank waste of space. I suppose a student could use it to make notes directly in the textbook but most people don't deface their books that way, and the wide empty space means the actual content in the chapter is squished over to one side. Hard to look at and makes the textbook way thicker than it needs to be.Ill just buy the physical book at my school.I'm an international student in US so I have a hard time understanding the teachers and they talk so fast. Bc of that I usually zone out in class a lot. But when i do my hw or study for an exam i just read the book and work out the problems. And i passed it with flying colours.WASTE OF MONEY AND MY TIME.
