Just select the appropriate key combination from left and use the code given in the right hand side of the given below table. The Enter Key Combination Text for Key Combination Tex Delete Key{DELETE} or {DEL} Press Down Arrow Key {DOWN} Press Page Up {PGUP} Press Page Down {PGDN} Press Print Screen Key {PRTSC} Press Press Print Screen Key {PRTSC} Press Press Print Screen Key {PRTSC} Press Press Print Screen Key {PRTSC} Press Press Print Screen Key {PRTSC} Press Print Screen Key {PRTSC} Press Print Screen Key {PRTSC} Press Press Print Screen Key {PRTSC} Press Press Print Screen Key {PRTSC} Press Print Screen Key {PRTSC} Press Print Screen Key {PRTSC} Press Pr Alt Key % Press Alt + Tab % {TAB} Press Alt + Tab % {TAB} Press Alt + Tab + Tab % ({TAB} {TAB}) Press Ctrl + C ^C Press Ctrl + V ^V Shift + F10 to Invoke Right Click on Selected + {F10} Plus Sign {+} Percentage Sign {%} Example A{+}B{%} will Actually Type A+B% End Key {END} Auto Keyboard is another automation software that can automate pressing of a single key n number of times. Auto Keyboard can be really handy when you wish to press a single key really fast and keeping the key pressed does not fits the purpose and you have to manually press and depress a single key really fast and keeping the key pressed does not fits the purpose and you have to manually press and depress a single key really fast and keeping the key pressed does not fits the purpose and you have to manually press and depress a single key really fast and keeping the key pressed does not fits the purpose and you have to manually press and depress a single key really fast and keeping the key pressed does not fits the purpose and you have to manually press and depress a single key really fast and keeping the key pressed does not fits the purpose and you have to manually press and depress a single key really fast and keeping the key pressed does not fits the purpose and you have to manually press and depress a single key really fast and keeping the key pressed does not fits the purpose and you have to manually press and depress a single key really fast and keeping the key pressed does not fits the purpose and you have to manually press and depress a single key pressed does not fits the purpose and you have to manually press and depress a single key pressed does not fit to the purpose and you have to manually press and the purpose and you have to manually press and the purpose and you have to manually press and you have the your have the you Mouse Cursor Automation Utilities, nitro type speed hack. Works on, Nitro Type, Typing.com, and 10FastFingers. Keep in mind this script and the actual auto typer. Ask a question, post a review, or report the script. // ==UserScript == // @name Nitro Type, Typing.com, and 10FastFingers. Keep in mind this script is "helper". You must watch the video on how to use the actual auto typer. Video: This is only part of it. So if you haven't watched the video yet, It'll be confusing. The video will explain how to use this script and the actual auto typer. If a speed hack helper for the following games: nitro type, typing.com, 10 fastfingers // ACCURACY: // enter your copy")){ clearInterval(ntt); ctf(); }a }, 100); } waitForNT("ntwOfElementToWaitFor", function(elementID) { let element = document.querySelector(".dash-copy").textContent; var calcAcc = tbt.length / (tbt.length - ((acc / 100) * tbt.length)) calcAcc = calcAcc.toFixed(0) var speed = calcAcc.toString() var re; if (acc == 100){ tbt = tbt; } else{ re = new RegExp(`.{1,\${speed}}`, 'g'); tbt = tbt.match(re).join(u34ha); } let elementText = tbt; copyText(elementText); } // to cleepbored function (){ setInterval(function(){ tbt = tbt; } else{ re = new RegExp(`.{1,\${speed}})`, 'g'); tbt = tbt.match(re).join(u34ha); } let elementText = tbt; copyText(elementText); } // to cleepbored function (){ setInterval(function(){ tbt = tbt; } else{ re = new RegExp(`.{1,\${speed}})`, 'g'); tbt = tbt.match(re).join(u34ha); } let elementText = tbt; copyText(elementText) = tbt.match(re).join(u34ha); } let elementText = tbt; copyText(elementText) = tbt.match(re).join(u34ha); } let elementText = tbt.match(re).join(u34ha); } let elem document.querySelector(".screenFalling").textContent.split(").join("); // search time = st if (document.querySelector(".screenFalling").textContent.split(").join("); console.log("On left to right") } else if(document.querySelector(".screenFalling")){ tbt = document.querySelector(".screenFalling").textContent.split(").join("); console.log("On left to right") } line").textContent.split(").join("); console.log("down to up") } function waitForTypin(nm, wkn)(var st = setInterval(st); wkn(); } if(document.querySelector(".screenFalling")){ clearInterval(st); } if(document.querySelector } }, 100); } waitForTypin("nmOfElementToWaitFor", function(){ function myFunction(elementID) { // let element typin = document.querySelectorAll(".screenBasic-lines")){ tbt = document.querySelectorAll(".screenBasic-lines"))} [0].textContent.replace(//q, '') + ''''; } else if(document.querySelector(".screenFalling")!== null){ tbt = document.querySelector(".screenIntro-lines").textContent.split("),join("); join("); console.log("Ready. click on the play button.") } var calcAcc = tbt.length / (tbt.length - ((acc / 100) * tbt.length)) calcAcc = calcAcc.toFixed(0) var speed = calcAcc.toFixed(0) var speed = tbt.match(re).join(u34ha); } let elementText = tbt; copyText(elementText); } // to clearInterval(tfftt); tffctf(); } 100); } if (location.hostname == "10fastfingers.com") { window.onload = blue() } function () { function myFunction(elementID) } { let tbt = document.querySelector("#row1").textContent; //console.log("text length: " + total content for the content for t tbt.length) var calcAcc = tbt.length / (tbt.length - ((acc / 100) * tbt.length)) calcAcc = calcAcc.toString() var re; if (acc == 100) { tbt = tbt; } else { re = new RegExp(`.{1,\${speed}}`, 'g'); tbt = tbt.match(re).join(u34ha); } let elementText) copyText(elementText) copyText(elementText); } // to cleepbored function copyText(text) { navigator.clipboard.writeText(text); } setTimeout(function() { // document.querySelectorAll(".dash-copy-input")[0].focus() },1); }, 4000) // call myFunction() } // if close [Music][Music]so[Music][Music]so[Music][Music]so[Music][Music]so[Music][Music]so[Music][Music]so[Music][press one enterall right i'm gonna go to oh waiti set it to do five phrases so i'm gonnago to sleepwhile it does that by the way so i'mgonna all right i'm gonnastart the racethat is typingperfect perfect[Music]all right technically we're in a racebut with this thingokay close i just have to close that thing againeven with the pop-ups it's still goingto workit's still on time it doesn't matter buti just have to close itso just so you guys can see that it'sstill typing[Music] speed. 'Average Speed' of any nitro type racer is based on his/her last 10 races. So we can do some tricks here. And as all of you know that when we enter in a race, they calculate your 'Average Speed' and connect you to a racing session where all other races have about the same average speed as yours. Game HacksI am going to tell you how to win every race you join without using any hacks. In order to win every race you join the one and only one requirement is Your typing speed should me more than 25 word per minute. If you can type with this speed or faster then follow me step by step. HomeGame HacksI am going to tell you how to win every race you join without using any hacks. CLICK HEREIn order to win every race you join the one and only one requirement is Your typing speed should me more than 25 word per minute. If you can type with this speed or faster then follow me step by step. Login to nitro type and go to your 'stats' page. On 'Racing Record' section to that you will find you average speed and your all time highest speed. 'Average Speed' of any nitro type racer is based on his/her last 10 races. So we can do some tricks here. And as all of you know that when we enter in a race, they calculate your 'Average Speed' and connect you to a racing session where all other races have about the same average speed as yours. Now think of a hypothetical situation, suppose iloveshoes2 is racing on nitro type for a while, and she got frustrated because she is losing all the time. As she know that all my opponent typer are as good as me and they can beat my easily. So she got a question in her mind, What if i decrease me 'Average Speed' by 20 WPM? If she is able to do this then his all other 4 opponent will be slow typers than she.CLICK HEREloveshoes's last 10 races speed -61, 63, 59, 57, 63, 62, 65, 55, 58, 61Now his 'Average Speed' would be 604 divided by 10 equal 60 wpm. And In his next race all his opponent will be 45-50 wpm 'Average Speed' racers. So iloveshoes 2 can easily beat then all.: DThat is all what you have to do, type 2 or 3 races with extremely slow speed, speed to turtle, as slow as you can. As after that you will beat your slow opponents like a BOSS!! ot it? If you have any quesion, comment down below Now.CLICK HEREWatch a Video Tutorial for this on youtube. Link is given below. If you are brave enough to use speed hack of nitro type, you should visit some recent posts on my blog. I have uploaded a fully functional and safe hack tool named Nitro Typer 4.0 to type automatically on nitro type. I
