4.8 Measures relating to the landside

Recommendation.— *Each Contracting State should ensure that security measures in landside areas are established to mitigate possible threats of acts of unlawful interference in accordance with a risk assessment carried out by the relevant authorities.*

4.9 Measures relating to cyber threats

Recommendation.— *Each Contracting State should develop measures in order to protect information and communication technology systems used for civil aviation purposes from interference that may jeopardize the safety of civil aviation.*

C. Deportees

5.18 Contracting States removing deportees from their territories shall assume all obligations, responsibilities and costs associated with the removal.

5.19 Contracting States, when making arrangements with an aircraft operator for the removal of a deportee, shall make available the following information as soon as possible, but in any case not later than 24 hours before the scheduled time of departure of the flight:

- a) a copy of the deportation order, if legislation of the Contracting State allows for it;
- b) a risk assessment by the State and/or any other pertinent information that would help the aircraft operator assess the risk to the security of the flight; and
- c) the names and nationalities of any escorts.

Note.— *In order to ensure coordination of facilitation and security standards, attention is drawn to the applicable provisions of Annex 17, Chapter 4.*

CHAPTER 6. INTERNATIONAL AIRPORTS —
FACILITIES AND SERVICES FOR TRAFFIC

B. Airport traffic flow arrangements

III. Outbound passengers, crew and baggage

6.16 **Recommended Practice.**— *Each Contracting State should allow airport and aircraft operators to provide off-airport check-in facilities, so long as all necessary security measures and other control requirements are met.*

4.3.5 Recommendation- Each contracting state shall ensure security controls are in place to safeguard the aircraft and restricted area against unlawful interference. 2.4.7 Upon request contracting states should provide a written version of requested parts of its national civil aviation security programme. 3.4 Quality Control 3.4.1 Persons implementing security control programmes are subject to security background checks. Montreal-Canada. INTERNATIONAL CIVIL AVIATION ORGANIZATION. (2006) Annex 17: Security. ICAO. 4.5.5 Only individually identified luggage which has undergone screening is to go on-board the aircraft. 5.3.2 Recommendation- The exchange of information management and response to acts of unlawful interference should be shared with other contracting states as well as ICAO. 4.3.4 Subject to 4.3.1 the aircraft should be protected from interference from the time of search till takeoff. 4.3 Measures Relating To Aircraft. 3.2.3 Each contracting state shall have a security committee at each airport that assists in the coordination and implementation of security programmes. 3.4.2 Persons implementing security controls should pass all competency requirements for the job as well as be trained accordingly. 3.2.2 Each contracting state shall ensure at each airport there is an authority responsible for the coordination and implementation of security controls. 5.1.4 Contingency plans must be developed with proper resources made available. 2.5 Equipment Research & Development 2.5.1 Recommendation-Each Contracting state should promote the development of new security equipment through research and cooperation with other contracting states. 3.4.3 Personnel carrying out screening should be certified in accordance to the requirements of the national civil aviation security programme. 4.7 Measures Relating To Special Categories Of Passengers. 4.3.3 During flight unauthorized persons must not enter the crew compartment. 2.3 Recommendation of subsidations - Contracting states should, whenever possible, prepare procedures and safety controls that involve minimum interference, as long as it is not compromised the effectiveness of procedures and controls. 4.3.1 Checks or searches for the safety of the aircraft will be carried out based on the risk assessment or procedure. 2.5.2 Each Contracting State guarantees that the development of new safety equipment takes into account the principles relating to human factors. 4.5.6 Recommendation - each Contracting State must have procedures for the treatment of unidentified luggage. 4.2.1 Access to the flight side areas of the airports is checked to avoid unauthorized entry. 3.1.5 Each Contracting State establishes a security committee in order to coordinate safety activities between services and agencies. 4.4.4 Passengers in transit and their hand luggage should be protected by illegal interference. 5.1.3 Adequate provisions should be taken to manage, investigate or dispose of the devices suspected of harm. 4.5.4 The hold baggage must be checked before being loaded on the aircraft. 4.4.3 Controlled passengers and luggage should be protected from unauthorized interference. 3.1.9 Each Contracting State should have written versions of the guidelines of your security program intended for its aircraft and airport operators, so as to allow them to satisfy the safety requirements. 3.1.6 The authority responsible for air safety of each State should develop and implement training programs for personnel involved in the sector, in order to guarantee the effectiveness of the security program. 2.4.8 When the information was shared with other states, ICAO should be informed of shared information. 4.2.4 security controls shall be carried out on airport staff required to enter security restricted areas. 2.4.4 Each Contracting State shall develop and implement secure protection and processing procedures for the protection of security information affecting the security of other Contracting States. 4.4 Measures relating to passengers and their cabin baggage 4.4.1-4.4.2 Passengers and their cabin baggage shall be screened prior to boarding. 4.7.7 States Parties that decide to have security officers on board should ensure that they are government personnel and are adequately trained. References 1.INTERNAL CIVIL AVIATION ORGANIZATION. (2006).Annex 17: Security. 4.7.2 Measures, Procedures, should be included in the written safety programme specifying 4.7.1 4.7.3 In the case of 4.7.1, the pilot should be informed that this passenger is on board the aircraft. 2.4.3 Each Contracting State shall develop and implement procedures for sharing with other States "threat information" applicable to the aviation security interests of those States. 3.4.8 States affected by acts of unlawful interference should review their security procedures and controls and address areas of weakness. 4.2.7 Recommendation-identity documents should be reliable and on an international basis for the crew of an aircraft. The handbook consists of five chapters with the first definitions of the terms used in the handbook. 2.1.2Recommendations - Each Contracting State shall ensure the protection of all aviation safety information. 4.2.2 Each Contracting State shall ensure that security restricted areas are applied at airports on the basis of security risk assessments. 3.1.4 The aviation security authorities of each State should define and assign tasks and coordinate activities between the necessary services and agencies. Chapter 3: Organization 3.1 National Organization and Competent Authority 3.1.1 Each Contracting State shall establish and implement written security programmes. 5.2.3 A Contracting State must provide mutual assistance if its aircraft are subject to unlawful interference, if there is an air raid within its jurisdiction. 4.3.2 Correct measures used Make sure that the passengers traveling will not leave any object on the aircraft after the landing. 3.1.2 The ICAO should be informed of the authority chosen within the organization's administration to manage the development, implementation and maintenance of their security program. 2.1.2 Taking into account the safety, regularity and efficiency of flights, each Contracting State should have an organization responsible for organizing its own practices, procedures and development and application of regulations to ensure safety against illicit interference. Annex 17 contains clear guidelines on the way in which each Contracting State must protect themselves from acts of illegal interference. 3.3.2 Recommendation - Each Contracting State that uses aircraft with a maximum take-off mass exceeding 5700 kg must implement and maintain a script security program. 4.5.2 The hold baggage to be transported to the aircraft must be protected against interference. 3.3 Aircraft operations 3.3.1 Each Contracting State establishes, implements and maintains a program written for the safety of the operator. 4.7.4 A special authorization is required for law enforcement agents who want to bring weapons on board. 2.4.6 In the case of bilateral agreements between states, it is necessary to insert a clause relating to air safety, taking into account the clause model processed by the appao. CHAPTER 5 Management of the response to the acts of illicit interference. 3.4.6 Each Contracting State periodically organizes controls, inspections and safety checks to verify compliance. 4.2.5 The circulation of vehicles and staff in sterile areas should be controlled. 4.7.6 The transportation of weapons aboard an aircraft is allowed only if it is not loaded and preserved satisfactorily for safety staff. 2.2.2 States Parties shall ensure that safeguards against acts of unlawful interference are also applied to where possible after a risk assessment has been carried out. 4.2.6 In addition to passengers traveling, A persons entering security restricted areas also need to be screened. 2.4.2 Each Contracting State shall cooperate with other States in the development and exchange of information relating to national civil aviation in the following areas: training programs, security programs and quality control programs. Any changes to the system procedures and controls shall be notified to ICAO. 3.2.4 Each Contracting State will in the project all changes to its architecture and infrastructure necessary for the implementation of security measures and will change existing facilities at the airport to meet safety requirements. Chapter 1. 2.4 International cooperation 2.4.1 Each Contracting State shall ensure that any request from other Contracting States for additional security measures is satisfied as far as possible in relation to specific flights. 4.5.3 Baggage shall not be carried on an aircraft without identification. 3.1.3 Each Contracting State should constantly review the level of threat to aviation in its territory and establish new procedures accordingly, as well as notify ICAO of changes. 4.7.1 Procedures should be established to specify how to handle the transport of disruptive passengers that may be subject to judicial or administrative proceedings. 3.2 Airport operations 3.2.1 Each Contracting State shall ensure the maintenance and implementation of written airport security programs in accordance with its national civil aviation security requirements. The Handbook provides guidance to assist each State Party in the implementation of its national civil aviation security program in accordance with the ICAO Convention1. This Wiki will offer a synthesis of chapters mainly from two to five. 4.2 Measures related to access control. 4.2.8 The specific checks referred to in point 4.2.4 should be carried out on a regular regular basis delaeacnoC rof dehcraes eb yam tfarcia na nevig si noitamrofni elbailer nehW 2.1.5 .ecneretfretnl lufwalnU fo stcA tsniaG noitaivA liviC lanoitaretlnl gnidraugefaS .stropria ta saera detcirtser ytiruces draugefas ot ecalp ni era smetsys noitaciftitmedi ersune llahs etats gnitcartnoC 3.2.4 natTA einaLeM egap siht ot srotubirtnoC .ecneretfretnl lufwalnU fo stcA tsniaG noitaivA liviC lanoitaretlnl gnidraugefaS : ytiruceS :71 xennA OACI .lennosrep demra fo levart rof wolla ot rehtehw ot sdrager ni setats rehto morf stseuqer redisnoC llahs etats gnitcartnoC hcaE 5.7.4 5.7.4 Dangerous devices and explosives with proper notification to the authorities. 5.2.4 Aircraft subjected to unlawful seizure that are landed in another territory of the Contracting State should be detained on the ground unless its starting id is due to the need to protect life. 2.1.3 Contracting States guarantee the responsibility for their regulations, practices and procedures does the following; a) protects the safety of its crew both on the ground and in the air, as well as safeguarding the general public also by the acts of illegal interference. 3.1.8 Ensuring that security resources and support structures are released by the competent authorities. 5.1 Prevention 5.1.1 When reliable information relating to the illegal interference were provided, the appropriate measures should be adopted to safeguard the competent aircraft and authorities and notified ATCs. Chapter 4 Preventive Security Measures 4.1 Objective - Each Contracting State should have measures in force, preventing unlawful interference occurring or deactivating the aircraft. Definitions The words that this chapter offers listed definitions 1: Air Force aviation aircraft certification aviation aircraft certification aviation aircraft certification aeronautical certification sideaughty sideaughty security security security security security security security unidentified baggage Chapter 2 - General principles 2.1 General principles 2.1 Objective 2.1.1 The primary objective of each Contracting State is the safe protection of the Passengers, terrain staff, crew and public generally against any acts of illegal interference. 4.5 Measures related to iron luggage 4.5.1 Luggage must be projected before being loaded on the aircraft. 3.3.4 Each Contracting Contracting State in-cooperation with the ICAO model as a basis for operators in accordance with paragraphs 3.3.1, 3.3.2 and 3.3.3.5. Contracting States participating in code-sharing programs or agreements shall notify the authorities the nature of the agreement. 3.4.4 Authorities competent authorities must develop, implement and maintain a quality control to determine compliance program. (b) capable of reacting rapidly to any increase in the threat to security. 4.7.8 The pilot-in-command shall be informed of each armed passenger on board the seat assignment. 5.3 Exchange of information and reports 5.3.1 States which have experienced the act of unlawful interference shall notify ICAO of the security aspects of the interference once the A was resolved. 5.2 Response 5.2.1-5.2.2 Appropriate actions shall be taken to safeguard crew and passengers in the event that an aircraft is subject to acts of unlawful interference. interference.
