"athel loren will not suffer the presence of men, or orcs, or dwarfs, or beasts. if an enemy takes one step on such a sacred ground, they will not take another." - scarloc, mist walker de athel loren. symbol of the wooden elves, [1c] or as the people of athel loren of the men, [2a] are a reclusive, secret and highly insulating sub-mouth of elves elves. that long ago was voluntarily separated from the relatives, preferring instead to live so lives in the embrace of wood elves exist, such as the eonir of the forest laurelorn. [1a] [6] of these mystical kingdoms, the wooden elves have learned to live in harmony with the seasons and the fabric of life and death that binds all living beings. They are the defenders of the forest, guardians of all natural and pure things. For millennia, the wooden elves have lived in this state of harmony, lay in wait and hidden from the indiscreet eyes of the wider world. [1a] however, the times have changed since that of other lands. Although they do not seek to act as the protectors of the world as well as the high elves, nor are they enthroned as so rulers as the dark elves, there are those moments when the will of prayer and ariel, the king and the queen in the wooden elves have spent all their inclined existence solely on the preservation of so forested kingdoms, to ensure that it persists over the centuries and to protect so demi-God rulers from all damage, has never beentrue that in these dark days, where each broken branch or withered leaf carries a preage of darker times. [11] At this time, the Oak of the Age in the heart of the great forest had spread its roots in many lands, creating a network of world roots that the spirits of wood could go through to far away places. So the big forest first discovered the summer lands of Avelorn, and met the Ulthuan Elves. No race came closer to the spirits of the great forest than the Elves, who in their innocence, marveled at their marvelous nature, and whispered with their ancient spirits so that they could learn their secrets. One of the spirits in particular, Durthu — or Oakheart, as the Elves called it — took over the people of Avelorn, particularly their Everqueen Astarielle. Soon, he consented to teach them how to shape trees without damaging branch or branch, and blessed them with many other secrets that his species possessed. For a short time later, Avelorn knew a golden age that would eclipse anyone who followed. Under the combined administration of Elves and forest spirits, forests and meadows flourished in an incredible life. Many of the great spirits of the forest left their home for Avelorn's paradise, because they were determined to awaken those trees as they themselves had been awakened. However, although Avelorn became more and more wonderful and beautiful, his trees remained silent. Then came the Daemons. [1i] The coming of the big polar gates, Chaos swept through the world. Everywhere, civilizations burned and madness outweighed order. Ulthuan suffered more than any other land, because many among the daemonic hosts were thirsting for Elven souls over all others. If great heroes had not emerged to face the challenge, They would have been completely destroyed and their land would have become a pandemmonium court. The biggest of these hosts was Aenarion the defender, first of the Kings Fã © Nix. It was he who filled Elves to hold back the daemonic tide, and his example ever spurred others to greater deeds. In time, Aenarion took the Everqueen Astarielle as his wife, and she bore him two fine children: Morelion, and Yvraine. As the Phoenix King fought to preserve Ulthuan, the Everqueen withdrew into the hallowed woods of Avelorn to raise their children as far from war as those days would allow.[1i] Avelorn had so far been spared the horrors of the invasion, for the Daemons sensed that Durthu and his kind were not dissimilar in nature to themselves, and were wary of attacking their domain if easier prey was close at hand. Such a state of affairs could not last, however. One fateful day, when Aenarion¢ÃÂs army was campaigning far from Avelorn, and the slaughter began. As Avelorn burned, Durthu and his kind fought alongside the Elves - they could have fled back to the great forest, but chose to stand with their allies. Many were destroyed, others were driven mad with despair, yet still the spirits of the forest battled on. But Avelorn could neither be saved by valour nor by strength of arms. Hour by hour, the Elves and spirits were driven deeper into their heartlands, until finally there was nowhere left to retreat to.[1i] It was late on that last day that Astarielle came to Durthu with a desperate request: that he rescue her children from the coming doom. For a time, Durthu stood silent, as the forest burned around them, the tears and pleas of his petitioner seemingly unheeded. To carry blooded creatures along the Oak of Ages¢Ã worldroots would no doubt be seen as a dire transgression, and he was minded not to invoke the wrath of his peers, yet in his time in Avelorn, Durthu had seen how the Elves and forest spirits had been far stronger and wiser together than they had been apart ¢Â if either survived the darkness, that strength would surely serve the great sal orep ,arto rop aznarepse nis allatab anu odaibmacretni aÃbah euq aÃceraP. ratnoc ed ¡Ãlla s¡Ãm snomeaD rop sadatlasa noreuf saretnorf sus secnotne osulcni e ,atleuv ed odavell naÃbah euq ejavlas aigam y ogeuf ed secirtacic sal ³Ãjorra odicerolf aÃbah ednod arreit aL. roiretna odavell naÃbah euq ejavlas aigam y ogeuf ed secirtacic sal ³Ãjorra odicerolf aÃbah euq ejavlas aigam y ogeuf ed secirtacic sal ³Ãjorra odicerolf aÃbah ednod arreit aL. roiretna odavell naÃbah euq ejavlas aigam y ogeuf ed secirtacic sal ³Ãjorra odicerolf aÃbah euq edrev aredam narg aL .nrolevA euq rojem ocop odi areibuh asac us euq ed ³Ãnretsnoc es ,euqsob narg la ³Ãserger uhtruD odnauC .sougitna sol ed otsedle ,uhtruD azelarutan al ed n³Ãicpurroc aL]i1[.onitsed us rartnocne arap allatab al aicah etnemadamlac euf es y elbangupxeni ³Ãicenamrep aigam us ed ocop ol ³Ãmall elleiratsA ,sojel eniarvY y noileroM a ³Ãvell utir-Ãpse le euq adidem A .uhtruD ed otneiminetnam le ne etnemadaruserpa oid sel neeuqrevE le ,zev amitlºÃ rop zev anu sojih sus a odnaseB .amla led odivlo le onis etreum al ojart on ozarba leurc us ;sutirÃpse ed rodaroved nu onis ,sopreuc ed rodaliopsed nu etnemarem are on .hsenaalS des ed lapicnirp etneivris le

When Phoenix King Caradryel finally gave the order that all loyal people of They must leave their colonies and return home, only the Elves of Athel Loren refused, and soon declared their independence from the Phoenix Throne. As the High Elves retreated westward, the Dwarves advanced. As the early winter snows began to fall, the grim children of the mountains descended upon Athel Loren, sleeping and burning. This quiet action led the forest to a fury, but its spirits had been lazy during the months of the frost. The Dryad were soon scattered or dead, and Durthu, the only old man who was not yet in the dream, was wounded near death by the sharp axes of Dwarfen. [1i] Realizing that the forest could not defeat the dwarfs alone, Durthu told him to move away from the invaders, and to open roads that pushed them to the edges of the Elven settlements. Thinking of themselves under attack, the Elves assaulted the Dwarves, filling the air with volley after arrow volley. As the forest had twisted the advance of the dwarfs, so also now he was guiding the steps of the Elves. Every time the dwarfs faced this threat again, the elves escaped to the trees, only to emerge impossible distances later. Unable to defeat an enemy on which they could not put honest steel, the remaining dwarfs retreated. After the victory, the Elves began to dwell within the borders of Athel Loren, because they feared reprisals of the Enanos more than they did the whimsical will of the forest. The forest did not resist, and the Elves wondered why. The sons of the Ulthuan road never heard the harsh words that struck between Adamhu and Coeddil as they discussed their destiny. Durthu, instigator of the current situation, remained silent through everything. It was then that the Elves, always respectful of all things natural, truly embraced Athel Loren as their home. More than that, the Elves treated the forest with the awe and reverence it deserved and demanded, seeing the essence of their ancestral gods in its seasonal cycles. They yowed never to take from the forest without giving back equally in service and sacrifice gave thanks to Athel Loren in ceremonies of blood.[1i] The Great Council Orion in his earlier years. Before long, Dwarfs marched upon Athel Loren once more. This time they came in a throng many tens of thousands strong, with warriors drawn from dozens of holds. When they learned of this threat, the great lords and ladies of the Wood Elves held council at the foot of the Oak of Ages, and even the trees of the glade crowded close, as if paying attention to what was said. The devotees of the trickster god performed their ritual dances, and the seers and prophetesses read the skeins of fate in the stars and patterns of flame. In that fire-lit glade, beautiful Ariel found herself drawn to the Lord The entity's state of the council was otherwise gloomy, because it was evident to everything that could not better dwarfs in battle. Worse, the seers had determined that the dwarves were nothing more than the minor of two nascent threats: a great horde of Greenskins was only a few days after throwing their own aggression. It was at that time of despair that Adanhu finally revealed to the elves. He promised that the spyritus of the forest would fight with them if the battle was carried before winter. Framed by Adanhu's words, the elves prepared their plans again. In their enthusiasm, they were careless of the warning of the ancient that would need a great sacrifice. [1i] It was not until many hours later, when the party ended, which was observed the absence of Ariel and Orión, but when no bass was revealed to them, the wandering lovers were reticently forgotten. The elves did not fight alone. The colossal trees strangled between the laven lines, and the great hosts of the Dryads made fun of the flanks. Strongy Durthu led the load, an unstoppable force of nature that sought revenge on those who had scared him. Against this amphition, the dwarves had few possibilities. Although they struggled with all the stubbornness of their race, they eventually broke and ran, leaving the side heavy mountain with their dead. [1i] Woe Lord Orion's winter during Woes winter. Unfortunately, he had
barely found the last arrow his mark on the dwarf meat when an ice cream hit through the branches of the forest and a chill grabbed the earth like never before. The Frão only accelerates the beginning of Greenskins. In an origit The Orcs built great piras to heat their warm hiding places. The elves fought with all their power under skies stained with the ashes of living wood, but the they were too many and so allies of forest spirit added by intense cold. gradually, athel loren fell to the invaders. the elves were prepared for their final position before the age oak. They did it with heavy hearts, because they didn't think they could win, but they knew there was no choice but to save to fight. [1i] then, at dawn, they saw the forest transformed. The snows were in retreat and the red blood flowers had pushed the hard ground. animals had been corrupted from hibernation and a concern could be felt in the air. As the sun rose, the cry of a great horn echoed in the wind. While the note faded, the powerful form of kurnoo, the god of the hunt, crashed through the forest. a lot of bleak hounds was crawling in so talons, and all the elves that looked at it were full of fresh vigor. The horn crashed a second time, and the greenskins found their perdition. Kurnoo struck the orcs, killing everyone before him in an orgy of destruction. freshly awakened dryads went crazy on her evening, eager to give so cruel mercy. [1i] While the living god plunged deeper into the greenskin lines, the elves joined the burden, eyes and swords lit with the furious power of their god. by the time the sun was set, not one orc remained alive. After the battle, the exhausted elves arrived before the age oak to pay tribute. Here they discovered the enthroned figures of ariel and orion, now they become avatars of isha, the mother goddess, and kurnoo, the hunter. Another great advice was quickly called, and there, all the lords and ladies of the forest knelt in worship of ariel and orion, now and forever the queen and king in the forest. [1i] Resurrection season (-1094 to -625 ic) to begin, ariel did not really understand the plagueHe had risen to the awakening - only he posed a great threat to Athel Loren. Determined to discover the truth, the Queen of the Wizard took counsel with the elders of the forest, and sent her scouts to scour distant realms. Little by little, Ariel was able to glean the nature of the creature she sought. No Wood Elf had yet seen the beast and lived to speak of the encounter, but the works it left behind were testament to its unspeakable ways. Where the creature walked, the fabric of the world twisted in hateful transformation: trees writhed into terrible and unnatural shapes, blackened crops bled under the scythe, and flesh reformed like clay in the hands of some crazed sculptor. Where it passed, sanity became wanton abandon. By these works did Ariel finally put a name to the foe: Cyanathair, she called it the Corruptor, incarnation of disorder and chaos. To his own vile kin he was known as Morghur, Master of Skulls. The existence of this being was of great offence to Ariel, for its ruination of the Weave represented everything that she opposed. Desperate to learn how to combat this new foe, Ariel took a great risk. Adopting a spirit form, she went out into the lands where Morghur had known free rein. After long months of tracking the creature AAAs spoor into lands no mortal Elf could tread without harm, she finally discovered the beast capering madly in the company of other abominable things. So lumpen and wretched was the creature that Ariel almost laughed to see it. She had expected some power-addled Mage, or a vengeful sorcerer of the ancient times; what she beheld was a crude and ignorant beast that lacked the wit to understand its own nature. Without hesitation, Ariel called cleansing flame down upon the Corruptor and its yowling herd. Her task complete, the Mage Queen returned home. In her arrogance, she believed that Morghur¢ÃÂÂs threat was ended. In time, she was sure, the living world would heal from the Corruptor¢ÄÄÄs touch and the Weave would gradually be restored. What Ariel did not realize was that Morghur was not so easily destroyed. Even as the Queen turned to leave, the wounds of the beast had begun to heal. Worse, Morghur had taken the measure of her as she had taken his. The beast had understood little of what she had seen because her deformed mind was a crazy spiral in which thoughts and words were alien concepts; But Morghur was not so acquired that he did not recognize Ariel for what she was. For the passage of many seasons The forest was full of bitter war. The war would have been serious enough if the elves and the forest spirit had fought as one, but Morghur's primary nature spoke with the heart of the forest, and parts of Athel Loren rebelled. [11] For a long and terrible year, Athel Loren rebelled. [11] For a long and terrible year, Athel Loren's natural order was interrupted, since Morghur could not be killed by the weapons of the elves. Worse, he recovered even more atrocious wounds. The most disastrous of everything, Athel Loren's bolts and spyritus succumbed to Morghur's stain. Innumerable times, the elves would be on the edge of the victory, just to take it from its reach while the madness seized the spirit that moments before had been his allies. This madness
was not always durable, but it seemed to affect the worst Dryads of all, because they would once have been the most capricious and evil voubbing of all of their kind. This terrible conflict only ended when Morghur was killed in the battle of anguish. [1i] Coeddil, one of the older ones of the older o time, the Queen of the Magician determined that the creature was destroyed, so she drew not only in her own power, but also to that of the forest. Before such an attack, not even Morghur could endure; Ariel hit the creature was destroyed, so she drew not only in her own power, but also to that of the forest. [11] Apocalypse season (-624 to 1116 IC) Athel Loren now enjoyed a golden age. Under the careful guide of Ariel, the elves and the forest approached more than ever, and the would calculated the weather, the wooden elves rarely more of the stone stones that limited their home. Only wild hunting openly rode, remembering the surrounding lands that Athel Loren as superstition Craven. There are always such people, whatever the land or age of the world. Most peace, although this was not strictly accurate. More than correctly, this was a time when Athel Loren suffered few ills from the forces of the outside world, and any battles that were fought ended in such glorious victories that the lost lives were considered to be worth the price. Fed by the bottle of the war, the forces of the outside world, and any battles that were fought ended in such glorious victories that the lost lives were considered to be worth the price. and its inhabitants multiplied as never before. However, such an abundant peace could not last. Morghur renamed again, and a great Warrasto of beast men soon met him. This time, the wild horde did not descend on Athel Loren, but raised through the human tribal lands west of the forest. Although they are not as powerful as before, the roots of Athel Loren dug deeply and took a livelihood of many of the lands fed by the silver waters. Ariel did not dare to face Morghur herself, because the touch of her beast had terribly weakened her when she was last time she had faced him. Orion did not have such doubts. In fact, he longed for the opportunity to kill the beast who had dared to the beloved queen of his. [1i] The hunt goes to the wild riders traveling to the call of Orion. The elves who traveled with orion were dragged into his great fury, and unleashed a great ruin in the human lands that yacked on their way. But the elves did not care, because those killed were only human and, therefore, of little account. Only when the wild hunt reached the slopes of the silversmith was his anger finally off. With spear and arrow, the wooden elves led to the men of the beast from the sacred confluence and towards the claws that were waiting for Dryads. Orion himself ripped Morghur's limb of the limb, and threw the corrupt remains to a star wood pyre. [1i] No one another living being found the elves in the silversmith, but as well as another presence there, a not very different from his queen, and whose whispers resonated in his mind. When Orion brought Athel Loren's follow -up, none was more intrigued than Ariel. The Queen of the Magician had believed for a long time that Morghur was barely aware of his own actions, and that the gods of chaos guided her steps. It was they who led the corruptor to devour it and ori, to consume the pious essence of Isha and Kurnous as her dark masters had consumed the reliable gods. Orion was displeased, and vocally so. He would not, he said, hold back the fury of the Wild Hunt in service to his queen¢ÂÂS whim. Ariel had simply smiled and bade her husband ride wheresoever he wished; if the lands he chose were those claimed by the Bretonnians, so much the better.[1i] Common cause had brought friendship, but it was only good sense that the humans should fear their superiors. The spirit of Silverspire had, by this time, spread its influence far and wide across Bretonnia. The humans now power for that. With a whole kingdom now slyly enlisted to serve as a shield against Morghur, it seemed that Athel Loren¢ÃÂÂs future could only grow brighter.[1i] Unfortunately, the Wood Elves soon found it was harder to fade from the world for a second time. Bretonnian bards soon carried tales concerning the ¢ÃÂÂfair folk of the woods¢ÃÂA to many lands. Such stories could not help but find the ears of warlords seeking new territory, and the Wood Elves soon found their realm assailed by a succession of armies, each greater and more determined than the last.[1i] Allisara's Bane As stories of Athel Loren began to spread in the outside world, so too did word concerning events in other lands brought sadness. The main of these was Allisara, Ariel's sister and once, a long time ago, Malekith's wife of Naggaroth. She had lived in solitude, still seeking her troubled heart. [11] Eventually she came to learn great For the way her husband had taken. So Allisara begged Ariel for letting her out of Athel Loren and return to Malekith's side, so she can calm the anger in her soul. Arrangements were made, and Allisara soon traveled west with an escort in line with her rank. Malekith strived to keep the imminent who had promised to help Naggaroth. [1i] blinded by Morathi, The spells and his own desire to recover the high season, Valitor gathered the forces he could and brought to the wooden elves to fight on the Bretonians, for those who passed to legend as a battle between glorious and terrible gods. Although the wooden elves fought without fear, it was a battle they could not find victory, the leader of the Allisara escort prevented him from fleeing. Unfortunately, an unfortunate arrow knocked down the eagle that drove her away from the damage, and left her without weapons and alone before the valetor. [1i] Using her new power, the magician Queen restored a part of Athel Athel worldroots, and Orion used these paths to release a great deal of war on Ellyrion, the land of the birth of Prince Valedor Ellyrion's people were slow to respond. Kurnous had always been the main deity of his land, and they were slow to raise weapons against him who bore his appearance. Their hesitation was to cost them expensive. That summer, the plains of Ellyrion ran red with the blood of their people. Finally, even Orion could not find joy in this work; it was not a hunt, but a massacre. This would surely have led Orion to fight with his queen, there was no Ariel finally destroyed the enchantments of Morathi, finally revealing Hag's sorcerer and his bad plans. [1i] Vengeance of the Mage Queen Now, the Wood Elves carried their vengeance northwest and into the bleak pine forests of Naggaroth. They had no desire to stay on that land, because their forests were bitter and lifeless, and the cold air sprinkled the heart of even the most cruel of the Dryad. They soon brought the fortress of Morathi of Ghrond under siege. The defenses of the Tower of Prophecy had been carried out to protect themselves against the attacks of the frozen north, not one that had emerged from the forests of their own lands of heart, and their outer walls soon shattered under the cuffs of the Treemen. Desperate, Morathi sent messengers south to ask for help from his son, the Witch King had publicly forgiven Morathi his transgression, he now saw a chance of revenge for his lost wife, bringing her to a heel, and was pleased that he forbade any help to be sent to the north. However, Hag's sorceress had tried the power of the witch, she would never have been able to restore the waters of the world for a long time, or overthrow the dark citadel of Moathi. Ariel should not have accepted him if her soul had not been shaded by the gaps that she had already used, but her attractiveness was over her. Moathi smiled in when the treatment was achieved; She had no intention of giving up her greatest secrets, but if a part of her knowledge must be shared to guarantee survival, it was a price that was worth paying. It was also allowed Moathi to live, and begin the decline of her to darkness, also her madness infected Athel Loren's wooden elves. On her return to Athel Loren, Ariel and Orion fought greatly about the treatment that had been achieved. The legends tell how their arguments were normally glorious were packed by the frozen cold. The next spring, the unthinkable happened: Orion did not rename. The wild riders brought his oak, but Ariel sent them without explanation. The Queen of the Queen's court believed that she had gone crazy. Soon, Ariel's bitter nature extended to the spyritus of the forest, and without the beginning of the wild hunting of Orion to get rid of his grudge, they began to take advantage of the elves in a way that had not been seen for centuries. in a decade, athel loren's life had changed from symbiotic harmony to a daily newspaperto survive. [1i] The Elves and spirits did not realize or care, because their perceptions had changed insidiously as the forest had changed, and this life now became a nightmare of awakening. Durthu and Adanhu were among those who held their sanity, but they could do nothing to the growing madness. The Wood Elves now became more and more aggressive, and in the will of Ariel traveled far and wide, avenging the wounds of the previous seasons. The Bretonian lords who expanded their domains too close to the forest boundaries were expelled. Enano argues that they had sent warriors against Athel Loren found their slaughtered commercial caravans and their ambushed armies in the march. The Greenskin tribes were exterminated or expelled from their dens in the mountains. Ariel used her sorcerers to reinforce many of these attacks. Never again, he swore, Athel Loren would suffer from the greed or cruelty of the primitives. [1i] What he did not realize was that the more he was based on the forbidden magics, the more damage he was done to the Weave and, as a consequence, the weakest Athel Loren—and all those who were living within him—became. Before long, Morghur rose again, this time in the Shadow Forest. On this occasion, Ariel resolved that the corruption of the creature would be calm once and for all — she would consume her power as she had tried to devour it. The queen of the sage sent a host to the north through the global root, and soon they brought Morghur to battle. As they had before, the Wood Elves found the Corruptor all less immune to their weapons, but Ariel had planned against this circumstance. In fact, it was based on it. At the height of the battle, Ariel had planned against this circumstance. greatfrom Spellsingers to catch Morghur and transport it through the world's oak to the oak of the age. They finally escaped only to blunder into an army of Bretonnians seeking recompense for the Wood Elves, the Elders of the forest could stand by no more. Spring came upon them, but there was no sign of renewal. Indeed, they could feel the forest withering and dying around them, and knew that disaster could only be averted if the taint in Ariel¢ÂÂs soul could be cleansed. With the aid of a youngà seeress named Naieth, who had herself resisted the madness of those times, they gathered what forces they could and marched on the King¢ÃÂÂs Glade.[1i] There Adanhu tried to reason with Ariel. He sought to turn the Mage Queen aside from the path she had taken, but she denied him, and saw only an army come to dethrone her. Issuing a great shriek, Ariel summoned the maddened Elves and spirits to her side, and ordered her challengers begone. Battle then broke out in the heart of Athel Loren, though afterward none could say which side struck the first blow. The tide soon turned against Adanhu and his followers, for they were badly outnumbered. Thus did the Elder resort to a desperate deed. Reaching out to Ariel through their shared connection with the Weave, Adanhu drew the taint from her heart and into his own. Alas, that selfless act was Adanhu¢ÃÂs last ¢ÃÂs the burden which Ariel had borne those long years was too great for the mighty Elder, and he perished instantly.[1i] All at once, the madness passed from the forest. Elves and spirits awoke as from a nightmare, the cloak of vengeance and spite that had clouded their vision for so long at last melting away like snow in the first days of spring. Ariel saw none of this. Adanhu¢ÃÂs gift gift had brought awareness of all the harm she had wrought, of the natural cycles she had put out of balance by selfishness. Weeping, the Mage
Queen fled and hid within the Oak of Ages, there to atone for her sins and focus on restoring the harm that she had done. The Season of Retribution was finally ended, and a time of healing could now begin.[1i] Season of Redemption (1703 IC to 2007 IC) Ariel's final act before sealing herself away was to return Orion to the world. Never had his return carried such sorrow, for though queen and consort exchanged many words, few of them were joyful. Many years would pass before Ariel was seen again amongst the glades of Athel Loren. At the close of each year, the Wild Riders brought Orion's ashes to the Oak of Ages, and each spring the King in the Woods was reborn. Yet for many long years he ruled alone. Ariel, in her sorrow and guilt, could not face her people, and instead dwelt silent and alone in the Oak of Ages.[11] The Wood Elves were distraught that they should be so abandoned by she who was at once both mother and gueen to them, but no amount of prayer or pleading would bring Ariel forth. So it was that the Mage Queen's throne of silver and Starwood sat empty for many turnings of the leaves. Despite Ariel¢ÂÂs absence, the cycle of life continued. The boundaries of the forest were quarded against intruders, the ancient glades were maintained and roving Beastmen warherds were glaughtered. Naieth argued for the folk of Athel Loren to put aside their isolationism. Such a radical departure from tradition wasn't liking to the taste of the lords and ladies, but a compromise was struck. Were it within the Wood Elves¢Â power to redress wrongs committed against the humans or Dwarfs of nearby lands ¢Â in essence, the creatures whose past transgressions had been born of crude ignorance, rather than willful malice ¢Â then they would do so. It would serve the wood elves badly if the fury without orion control repeated the mistakes of the previous season. the queen of the wise now saw that the balance between her and her consort was crucial for the survival of athel loren. Unfortunately, the queen of the magician was not yet willing to leave the oak of age and to meet with the council, nor would it be so for many seasons. So he sent emissaries instead, two heralds who shared his power and spoke with his voice, these were strangers to all, but some, who claimed to have fought with them in past battles, although the emissaries of twilight ariel were raised twins called naestra and arahan; only by the shadow of their hair and their way could be cast off. the spirit of a dark man's naestra was noble and chaste. her touch could heal the rawest wound, and it was with a heavy heart that she brought harm to the most nefarious creature. On the contrary, arahan's hair was as white as the newly fallen snow, and poured out a wild soul that rejoiced in the viscera of the battle. she revealed in the emotion of life, and her behavior was lured on the edge of acceptable - even in a kingdom as permissive as athel loren. In years to come, rumors abound in that neastra and arahan were only one divided into twain, better to speak for the dark and light natures of the ariel soul. And maybe this was true. Certainly the twins were never seen apart. On the other hand, the phrases of others were often terminated - although if the original intention was maintained when this happened, or was twisted to coincide with the will of the speaker, it was impossible to say. [1i] initially, the council did not accept naestra and arahan in their word, because they were strangers to all elvesand the spyritus of the forest remained silent on the matter. The twins were treated with cautious respect, but excluded from the Glad. Naestra took this distrust in her stride, never once raising her voice in Ire; Arahan responded with anger and impetuous threats. If summer cooled to the autumn, and Orión returned to the forest, it was the matter resolved. The King in the forest recognized instantly the essence of his gueen in the twins and, although he did not like the rebuke that her implicit presence of her, he confirmed her authority insistently. After, Naestra and Arahan took Ariel's place in the Council. He did not take his throne, but he was present on both sides while the Council discussed. The twins spoke, except to counteract the predominant state. Neastra went to the Council with a frequency in the summer months, and sought to temper nature, while Arahan overflowed in the boring months of winter, when unnecessary precaution and letharqy were rife. [1i] Ariel Returns In total, Ariel spent more than three hidden centuries in the world. It is likely that she had stayed for more time, if she had not discovered that Morghur had been reborn. Ariel felt that this incarnation was more powerful than anyone who had preceded her, and that all Athel Loren would need to join to defeat him. In truth, the soul of the Queen of the Magician was not yet completely clean, and she cared about the wisdom of leaving without healing. But she knew that diffamile times have required a terrible sacrifice, and finally emerged from the oak of age. [1i] big was enjoying that day. The wooden elves had everything but renounced her queen for lost, and now she welcomed her without reservations. Even the spyritus of the forest, that they had long memories that the elves and that had supported the mist of Ariel's madness, felt joy when he returned from her-even few would admit it. The most cheerful was the gathering between Ariel and Oriín, because long centuries had passed and separate anger. As one, the thief became and melted into the woods. Only Morghur was on his land, giving his wild madness to those who came to claim his life. The Corruptor was seriously wounded, his hiding place pierced by many arrows, but even the will of the dark gods led him to challenge. Then a final bow sang, and at last Morghur fell dead, a black arrow that came out from his eye-catching. [1i] Great was the party at Athel Loren when the host returned. Many heroes had made their names that day. The majority applicated of these was Scarloc, the archer whose arrow had finally fallen the Master of Skulls; but there was splendor that all the Elves could share. Thus the Redemption Season passed, Ariel and Orion were finally gathered, and the spirits of the Elves of the Wood were again made complete.
